

Diabetes Resources

Your diabetes insulin and supplies are important to your health. We offer insulin, testing supplies, and glucose monitoring at no cost.

Free Insulin - Tier 6 (\$0)

- Fiasp
- Humulin R U-500
- Insulin Aspart
- Lantus
- Lantus Solostar
- Novolin N
- Novolin R
- Novolin 70/30
- Novolog
- Novolog Mix 70/30
- Toujeo
- Some Generics

During the initial coverage phase (ICP), the copay is \$0 for the above insulins on Tier 6. Any insulin products not on this list will have no more than a \$35 dollar copay per months supply while in the ICP. Once the catastrophic phase is reached you will no longer have a copay on any insulin or diabetics supplies filled through your Medicare Advantage plan.

Glucose test strips and blood glucose testing meters

Preferred Options at \$0 cost share-

- Freestyle Precision
- Ascensia Contour

Continuous Glucose Monitoring (CGM)

Preferred Options at \$0 cost share-

- Freestyle Libre 2

All other brands of glucose monitors, strips, and meters are covered, but will incur a 20% coinsurance member cost.

Free blood glucose meters compatible with the preferred testing supplies can be obtained at your pharmacy.

If you are currently using a different brand and wish to change products to obtain one of the free preferred options, please speak to your pharmacist. Your physician may have to write you a new prescription.
